*Cabinet in a cabinet system;
Bi-Wiring WBT Nextgen connectors;
Dual High-Flow bass reflex;*

*Three different crossovers
in one speaker for three
different listening experiences;*

*Mini horn is introduced to enhance
tweeter performance by lowering
distortions and raising efficiency in
critical region;*

*A very wide-range operation
of the midrange unit (500-7000Hz)
ensures that most information
comes from a single point source
with virtually no phase
or crossover distortions which is
present in ordinary designs;*

Technical data

Maximum unclipped power handling	340 W
Nominal power handling	170 W
Frequency response (in-room)	25-30000Hz
Sensitivity (2.83V @ 1m)	92 dB
Nominal impedance	4 ohms
Crossover frequency	500Hz; 7000Hz
Drivers	1x 3cm silk dome tweeter 1x 16.5cm Hard Pulp Paper Midrange 2x 19cm Hard Pulp Paper Bass drivers
Dimensions (hxwxd)	1240mm x 444mm x 621mm
Weight	75 kg
Shipping weight	120 kg
